

Setting Up Application Environment

IBM Cloud CLI

Date	03 November 2022
Team ID	PNT2022TMID19425
Project Name	Smart Fashion Recommender Application
Maximum Marks	2 Marks

The screenshot displays the IBM Cloud CLI documentation page in a web browser. The page title is "Getting started with the IBM Cloud CLI". It provides instructions on installing the CLI and lists various plug-ins available for installation, including Docker, Helm, Kubernetes, and others. A sidebar on the left contains a navigation menu with sections like "Get started", "How to", and "Expand all".

Below the documentation page, a Windows PowerShell terminal window is shown. It displays the command to install the IBM Cloud CLI using the PowerShell WebClient. The output shows the download progress and the execution of the installer.

```

Install the latest PowerShell for new features and improvements! https://aka.ms/PSWindows

PS C:\Users\ishun> iex (New-Object Net.WebClient).DownloadString('https://clis.cloud.ibm.com/install/powershell')
Current platform is Win64. Downloading corresponding IBM Cloud CLI...
Download complete. Executing installer...
Install complete. Please restart to make the modification effective.
